

Surgical Face Mask Type II

SURGICAL FACE MASK TYPE II 3 PLY ANTI VIRUS AND BACTERIA PROTECTION MASK

These disposable surgical face masks can help decrease the transmission of flu and virus. This makes them ideal for use around critical infection control zones. Made of good quality non-woven fiber fabric with an elastic ear-loop, these masks are soft, comfortable and breathable, with one size fitting most people.

These face masks can also be used to protect you from dust, germs, smoke, pollution, ash, and pollen.
