E-PoC Gateway 3.0

Connecting E-PoC to existing radio systems

Part of Entel's E-PoC Push-to-Talk over Cellular (PoC / Wi-Fi) Solution, this all-in-one and easy-to-install low cost gateway enables you to extend the range of, or migrate from, existing radio systems.

Everything you need to know

- Can be used to easily extend the range and capabilities of existing radio systems and also benefit from E-PoC's extensive range of software and devices:

- Enables easy and low cost migration from existing radio systems to E-PoC.
- Scalable to meet the demands of more complex systems.
- Available in three versions:
 - Universal works with almost any radio system*
 - With built-in DMR Tier II / Analogue VHF or UHF radio

*Requires mobile radio with an accessory interface

Installation in just three easy steps

In less than 5 minutes, networks are integrated and ready to use.

Approvals: www.entel.co.uk/red

Key Benefits

- Multiple network support
- Enhance existing radio systems with E-PoC capabilities
- Over-the-air (OTA) programmable
- Scalable
- Easy to install
- Low cost
